

Stolen and Otherwise

A prophet has predicted the submergence of El Paso by a flood on October 6th.

It is supposed that W. H. Pope will be a republican if he is appointed judge of the Fifth district.

Thursday the first day of October has been decided upon as the date of the organization of a chamber of commerce in Bisbee.

The habitual pistol toter got in his work at El Paso on Monday. How long, oh Lord is an innocent public to continue at the mercy of these murderers?

The Las Cruces Progress says, The Torpedo miners didn't do much mining in the company's property in the Organs last Monday, but there was something doing in Bonham & Holt's law offices. Over forty liens were filed against the property by the employees.

Brown--Why do you want me to pay in advance? Are you afraid I won't bring the horse back?

Liveryman--No, no; not at all. But you see, the horse might come back without you.--Atlanta Journal.

The judicious advertiser is the one who keeps his advertisement constantly before the public through the medium of a good newspaper. Spasmodic advertising never did pay and never will pay.

The New Mexican thoroughly appreciates the kindly feeling that prompts the compliments of the New Mexico press anent the enlargement of the Daily New Mexican and the weekly New Mexican Review. The humblest newspaper of the territory is doing a great work for the advancement and prosperity of the territory, often under the most discouraging conditions and surroundings. The half will never be told of what New Mexico owes to its newspapers.

Tucson, Aug. 26.--Five prisoners including Carlos McCormick the boy murderer, aged 14, made their escape from the Pima county jail at an early hour yesterday, by digging a hole in the wall of the jail and dropping from the second story by means of a rope made from their blanket. All of the prisoners, except one, were Mexicans under sentence for smuggling and selling liquor to Indians. The escapes had been at liberty about four hours before the jail officers discovered their absence.

The Real Trouble.

"I don't think," said the sapient gentlemen, "that the trouble lies so much in English as she is spoke."

"No?" asked the other person.

"No. The difficulty, to my mind is in English as she is understood."--Judge.

Incorporation Papers Filed.

The following incorporation papers were filed in the office of the secretary of the territory: The Albuquerque Traction company, principal office in the city of Albuquerque, the capital stock of the company consists of 25000 shares of the par value of \$10 each making a total of \$250,000. The company has for its object the construction operation and maintenance of an electric railroad in the city of Albuquerque, as well as to furnish electric power for manufacturing purposes. The term of existence of the company is fixed at fifty years. The incorporators are W. H. Greer of Deming, Thomas N. Wilkerson, B. S. Baker, Thomas S. Hubble and M. W. Flournoy all of Albuquerque.

Teach English.

From the Philadelphia Ledger.

The main trouble with the public school system is that it aims to do too much; reaches out after the unnecessary, and neglects the needful and the obvious; does too many things very badly. Why should we bother heads unduly about Greek when the graduates of our schools speak English so lamentably that we are actually developing in this city a base kind of "patois" which is degrading the noble English language. Graduates of Philadelphia public schools often attract attention by the use of phrases like "He hasn't came," "have saw," "I seen," "He has went." They are ignorant of En-

glish grammar; ignorant of our history cannot spell and are nuisances to any business house that employs them.

Territory needs defenders.

New Mexico is pretty well supplied with schools and colleges for a territory and is making splendid progress in educational matters, but it has not half enough literary and debating societies. It ought to have many debating societies, and such societies ought to invite speakers to appear before them to talk on the statehood question. That is now of necessity the greatest question that is before our people, and it ought to be discussed and talked off, more, so that our own people will be better posted when they go abroad among the states, and be able to take our part and defend our good name, instead of doing as some of them now do, stand quietly by and hear us vilified without proper retort.

Strike at Fairview

A rich strike on the Great Republic at Kinsbury's camp, Grafton Sierra county, is causing some stir in mining circles. An expert representing the parties who have leased and bonded this property, arrived at Fairview three days ago and reported a very rich streak on one side of the vein varying from four to eight inches, samples of which run over 2,200 ounces silver and thirteen ounces of gold, while the vein, four feet wide, averages about \$40. This is in the new shaft on which work has been going on for about two months.

The upraise in the tunnel of the Goodenough mine at Chloride is also a bonanza. Five samples of the best ore from a four foot vein give an average of about \$130 to the ton. The owners are sorting a shipment to prove the value at the smelter.

Creating of States.

Some of the states entered the union easily, while others entered it only after hard and long continued agitation and effort. Think of the battles made by Missouri, Kansas, Nebraska, Michigan and Colorado. Some of them had their enabling acts vetoed two or three times, and others of them had their constitutions voted down by their own people more than once before they got in. The fight last winter was not in vain. It required the greatest effort of modern times of our enemies to defeat the bill. All rules and precedents had to be transgressed and broken to compass it. A plank of a national platform had to be repudiated. A whole session of congress had to be talked out, and much necessary and desired legislation needed by our very enemies had to be done without in order to keep us from our rights and worst of all, the desire of an overwhelming constitutional majority in the senate had to be blocked by a minority in order to prevent the bill from becoming a law.

ALBUQUERQUE Steam Laundry!

The oldest and largest and best known Laundry in the territory. All work is guaranteed first class

The Doctrine of Good Living.

Who doubts it? Certainly not the man on the train. He needs and should demand food that is properly cooked and daintily served. The Santa Fe provides the best of meals for those who journey. Its table d'hote service, 75 cents, is deservedly popular. Trains without dining cars reach meal stations at seasonable hours.

Go via the Santa Fe your next trip and be convinced
